

TUSHAR JAIN

Full Stack Web Developer

+91 7567955573 | tusharjain1911@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Dynamic Computer Science undergraduate with a strong command of JavaScript, React, and Python, driven by a passion for building web solutions that are fast, functional, and user-focused. Demonstrated ability to take projects from concept to completion — from real-time fitness trackers to AI-powered business dashboards. Known for structured problem-solving, clean code, and the initiative to learn and ship independently. Actively seeking remote opportunities with global teams to contribute, grow, and deliver real impact.

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, C/C++, HTML5, CSS3
Frameworks/Libraries: React.js, Node.js (basic)
Databases: MongoDB, SQL
Tools: Git, GitHub, VS Code, Figma, Postman, Google Colab
Competencies: REST APIs, Dashboard Reporting, ROI Analysis, Responsive Design, Data Processing

PROJECTS

AI Power Dashboard

JavaScript · SQL · Dashboard Reporting

- Designed and built a full-featured ROI calculation and business performance analytics dashboard.
- Implemented financial metrics computation, KPI tracking, and automated reporting logic.
- Delivered actionable insights to support business decision-making through visual data representation.
- Processed and analysed large datasets to generate performance benchmarks and trend reports.

Calories Burn Tracker

React · JavaScript · CSS

- Built a responsive calorie tracking web application supporting desktop and mobile devices.
- Implemented real-time calorie calculation engine with dynamic user input and instant feedback.
- Designed a clean, accessible frontend architecture with optimised component structure in React.

EDUCATION

B.Tech in Computer Science & Engineering

2024 – Present

Sardar Vallabhbhai Global University, Ahmedabad | CGPA: 6.2 / 10

ADDITIONAL INFORMATION

- Actively building GitHub portfolio with open-source contributions and personal projects.
- Available for remote/hybrid roles with foreign-based companies; comfortable with async workflows.
- Currently upskilling in Node.js, Express, and REST API development to strengthen full-stack capabilities.
